9 November 1965

MEMORANDUM FOR THE RECORD

SUBJECT: Polygraph

REFERENCE: Journal Item of 9 November 1965

In addition to the consideration discussed concerning the final report of the Committee and possible hearings on the Gallagher bill after the first of the year, Mr. Sam Archibald, Staff Director of House Government Operations Subcommittee, indicated that the Chairman has not changed any in his feelings on the overall subject of polygraph. However, the feelings of the other members now appear to be such that they would be as well pleased if the whole matter were to be dropped without further action by the Subcommittee. In consequence, the report, probably will not go as far as Chairman Moss would like. These are the considerations that also underlie the probability of pro forma hearings on the Gallagher bill and Mr. Crawford's informal withdrawal of the request for report on the Gallagher bill.
